## Kuriyama hose company

Kuriyama Europe Coöperatief U.A., part of Kuriyama Holdings, is a leading organization that manufactures and distributes a full line of thermoplastic and rubber tube products and accessories, including clutches and fire fighting equipment, for use in industrial, commercial and fire-fighting applications. Headquartered in Amsterdam in the Netherlands and with a distribution centre in Barcelona, Spain, the company launched its business by developing the Spanish and Portuguese markets. Today Kuriyama Europe Coöperatief offers its wide range of products throughout Europe, Africa and the Middle East. Many of these products are produced by their own subsidiaries. Since its establishment in Japan in 1939, the Kuriyama Group has had great success in rubber and industrial plastics for corporate clients. In 1960, it expanded into North America and carried out global business development in Central America, Asia and Europe. Today Kuriyama Holdings develops companies globally in cooperation with four core business companies. Kuriyama has 16 subsidiaries and 9 related companies under its auspices. In May 2015, Kuriyama expanded into Europe by acquiring TIPSa, increasing its capacity in manufacturing operations and contributing to the layout of the now known Kuriyama Europe Cooperatief. The main objective of the Kuriyama Europe Coöperatief group is to continue adding value to the Kuriyama Group by providing EMEA customers with a wide range of products and services. Kuriyama Europe Coöperatief's portfolio includes well-established brand names such as OROFLEX, TIGERFLEX, KURI TEC, RYL FLEX, RYLTEC, RYLASPIR, ARMTEX and much more. These recognized brand names have become a reference in the industry. Kuriyama of America, Inc., part of Kuriyama Corporation, first opened its doors in 1968. Located in Schaumburg, Illinois, the company has been eminently successful in developing and marketing a complete line of thermoplastic tube and accessories. Today, the Kuriyama group of companies from America includes seven subsidiaries, four warehouses and numerous distributors that provide a complete line of thermoplastic, rubber and metal pipe products and accessories, such as clutches and accessories, for use in industrial and commercial applications. Accuflex has for many years been a trusted title in thermoplastic tube and tube products, while serving unique and diverse markets. Accuflex also supplies products for propane, plumbing and industrial markets. Tube Tec manufactures several types of interlocking tubes, which include untied, lined and customizable versions that are designed to meet your requirements for use. Cev Tec also has an expanded catalog of custom products and services. Tube Tec is a leader in the industry for agriculture grain services, BOP applications, bulk, chimney applications, food service, hot material transfer, plastic pellets transfer, unloading rail car, steam service, and truck exhaust systems. Since 1984, Kuri Tec Corporation has provided high-quality industrial tubes and accessories throughout the Canadian market. Tigerflex® PVC Sucking and material handling pipes along with Kuri Tec® Thermoplastic tube and pipe products represent the most complete line of industrial tubes and pipe products available in the industry. Kuri Tec Corporation also has products for specialty Beverage, L.P. Gas and Medical Gas tube markets. Piranha tube Products recognize that high strength, fluid resistance and resistance to abrasions of specially formed thermoplastic resin are ideal for inner tube tubes and materials from the inner jacket.
